

Location Identifiers — Pole Markers

The Office of Emergency Management and Communications (OEMC) Location Identifier/Pole Marking Program was initiated through a combined effort of various City departments. “Pole Markers” serve as visual aids for the purposes of location identification by an individual and/or a first responder. It allows for an even more expeditious response by emergency personnel to incidents.

Location Identifiers

Letter and number combinations are used to identify locations. For instance, a sign listing the characters ‘M300’ would be located at approximately 300 E. Monroe St. and ‘LSD5132S’ would be at approximately 5132 S. DuSable Lake Shore Drive.

Currently Marked Areas

Lakefront

- Oak St. to Fullerton Ave.
- Montrose Dr. to Foster Dr.

Grant Park Area

- Columbus – Roosevelt to Randolph
- Balbo – Michigan to DuSable LSD
- Ida B. Wells – Michigan to Columbus
- Jackson – Michigan to DuSable LSD
- Monroe – Columbus to DuSable LSD

DuSable LSD

- 6600 S. to 1200 S. DuSable LSD

**Upcoming phases will encompass the rest of DuSable LSD to 5700 North*

Information on the Location Identifier / Pole Marking Program can be found on the City of Chicago website <https://www.chicago.gov/city/en/depts/oem.html>
